SUBJECT INDEX VOLUME 12 (1990)

acrylate methacrylate coacervates, 195
aggregation, 13
antitumor activity, 143
atrazine–starch granules, 251

bioadhesion, 31,45,55,187
biodegradable polymer, 143,159

colloidal particles, 25
compression coating, 97
controlled release of drug, 195,201
controlled release system, 25,213

diabetes, 1
diffusion, 201,241
dissolution, 201
drug delivery system, 195
drug release rate, 121
drug targetting, 113
drug release, 241

encapsulation, 251
ephedrine, 257
eudragit polymers, 213
eutrophication, 39
exchange diffusion, 235

5-fluorouracil, 143
flow channel method, 25
free volume, 241

GI transit, 45,55
gamma scintigraphy, 45
gastric emptying, 45,55
glycosylated insulin, 235

hairless mouse skin, 25,171
heterogeneous drug loading, 201
HPMC and NaCMC matrix tablets, 133
hyaluronic acid esters, 159
hydrogels, 155,241
hydrophilic matrix tablets, 133
Hypol foam, 1

implantable systems, 121
in vitro evaluation, 257
in vivo evaluation, 257
infrared spectroscopy, 67,103
insulin delivery, 1,13,235
interpenetration, 187

leaching, 251
levonorgestrel, 171
liposomes, 25
liver, 113

mathematical model, 201
matrix diffusion patch, 257
matrix devices, 155
microcapsule drug delivery system, 235
microencapsulation, 223
microfluidization, 223
micropump, 1,13
microspheres, 25,213
molecular size and solubility dependent drug release, 133
mucin, 187
mucoadhesion, 187

n-alkanols, 103
nanoparticles, 113,223
nifedipine, 213

oleic acid, 67
oral release systems, 133

pancreatectomized dog, 1
parasite, 113
pendent chain system, 155
penetration enchancers, 25,171
permeablity, 97
pH-dependent swelling, 241
phosphate fertilizer, 39
poly(α-malic acid), 143
polyacrylic acid, 187
polymer matrix, 201
polymer cation–drug release, 195
polymer–drug coacervates, 195
porous polymer matrix, 97
pseudolatices, 257

release kinetics, 159,213
rubber matrix, 39
self-regulating drug delivery, 235

silicone matrices, 121
skin penetration enhancement, 67,103
skin permeability, 103
small intestinal transit time, 45,55
soil–water system, 251
stratum corneum, 67

suspension, 13
swelling and erosion controlled matrices, 133
time dependent diffusivity, 155

transdermal drug delivery, 25,67
transdermal absorption, 103
transmembrane permeation, 77

ultrasonic enhancement, 77

zero order release, 25,155

AUTHOR INDEX VOLUME 12 (1990)

Abo-Elela, S.I., 39
Amidon, G.L., 241

Banba, T., 143
Barkai, A., 213
Benita, S., 213
Bodmeier, R., 223
Buri, P., 133

Catz, P., 171
Chang, N.J., 201
Chen, H., 223

Dixit, V.K., 257
Dorle, A.K., 113
